FACTORY

Aster

Something new, a little bit old, wood, rust, steel like gold, green, gray blue, black and white. From shadow to light. Factory.

MOODBOARD
Works in progress è la miglior definizione di Factory. Un cantiere di idee, di contaminazione di stili e di materia. Per chi non si ferma, per chi ricerca, rinnova e rivive. Contaminazione, materia, diversità, eclettismo, trasgressione. Unicità.

***MOODBOARD**
Factory is very much a work in progress. A workshop for exploring different ideas, celebrating a multi-disciplinary approach to different styles and materials. For those who love to move forward, always seeking something fresh, dynamic and original. Revelling in cross-contamination, material, diversity, eclecticism, and transgression. For unique results.*

REWRITING
Perchè il design è una lingua, la lingua usa le parole, le parole descrivono le forme, le forme sono materia. Materia che a volte ha già avuto una storia. Factory riscrive le forme, riscrive le regole, ridisegna lo spazio.

REWRITING
Design speaks a language of its own, one with words to describe forms. Forms are our material. Material that has a history and story of its own to tell. Factory rewrites each form, rewriting the rules, redesigning each and every space.
